July 2016 - June 2020

A three years diploma in Computer science , technical training With 70%

AVP School Bari, 10th — Secondary Education

July 2015 - June 2016

Secondary education with 70%

PROJECTS

1. Library Management System

Library management system is a project which aims in developing a computerized system to maintain all the daily work of a library. The system helps both students and library manager to keep a constant track of all the books available in the library.

The main feature of this system is that all the books available in the library can be displayed in a list so that students need not roam through the entire library to find a book. Additionally, the application effectively maintains the details of users/students to whom books have been issued; it also records the issued date and return date.

Language Used - Core Java

Concept Used - Swing

Database Used - MySQL

2. My Portfolio Website

This portfolio is a compilation of my skills, qualifications, education, training, and experiences. It provides insight into my personality and work ethics. This portfolio website is generally a static website featuring work samples and other details as explained above.

- Skills Used: HTML, CSS, JAVASCRIPT

SKILLS

- C
- C++
- JAVA
- OOPs Concepts
- SQL
- Basic Data Structures
- HTML , CSS , JAVASCRIPT

EXTRA CURRICULAR

- Member of Institute of Electronics and Telecommunication Engineer
- State level shot put player.
- Active participant of Debate, Speech and Group Discussion.

INTEREST

- Programming, Internet of Things (IOT) and Management.
- Home automation and Acting.
